# Kevin Zhuo

Selden, NY|631-590-0549| kevinzhuo68752@gmail.com|https://www.linkedin.com/in/kevin-zhuo43/

## Education

**Stony Brook University** **Stony Brook, NY**
*Mechanical Engineering Masters* *8/2026-Present*
GPA: N/A
Relevant Coursework: Intro to Finite Element Analysis, Advanced Dynamics, Energy Lab, Aerial Robotics.

**Stony Brook University** **Stony Brook, NY**
*Mechanical Engineering Bachelors* *1/2024-5/2026*
GPA: 3.61
Relevant Coursework: Engineering Solids, Electronic for Engineers, Fluids, Thermodynamics, Intro to Machine Design, Design of Machine Elements, Control Systems Theory, Thermal System Designs, Internal Combustion Engines, Thermodynamics II.

## Experience

**Stony Brook Motorsport Club** **Stony Brook, NY**
*Powertrain System Lead/Head Machinist* *8/2024-5/2026*
Modeling and design of powertrain components such as CVT, gearbox, axles for Baja Car. Managing and assisting subsystem leads and new members in their design.

**Brookhaven National Lab** **Upton, NY**
*Intern Chemistry Department* *6/2024-8/2024*
Developed and programmed using labVIEW a sample testing apparatus for the Chemistry division's Laser Electron Accelerator Facility boosting research efficiency.

**Brookhaven National Lab** **Upton, NY**
*Intern CAD department* *9/2023-12/2023*
Performed CFD testing of supercritical flow in Ansys, used FEA to determine pressure vessel failure conditions, utilized PTC Creo to model parts for the Relativistic Heavy Ion Collider.

**OmniTek Partners** **Ronkonkoma, NY**
*Assistant Quality Control* *6/2022-Present*
Performed quality control on finished parts to prevent defects, assembled components, helped maintain, and operate CNC machines.

**North Atlantic Industries** **Bohemia, NY**
*Intern Machinist* *5/2026-Present*
Programmed and Machined Parts of various materials using 3 and 5 axis CNC mills. Improved efficiency by collecting and processing manufacturing data. Designed CNC Fixtures.

## Projects

Machined, designed, and performed FEA studies on parts for Stony Brook University SAE Baja Club car.

Programmed and designed Multi Sample Changer for BNL LEAF accelerator.

## Additional Skills

CAD modeling and FEA analysis, PTC Creo Associate Certified, knowledge of NI labVIEW.
Can utilize many measurement tools and perform quality control.
Good Communication skills, good computer skills.
Can operate Mills, Lathes and TIG welding to produce parts in a variety of materials.

## Achievements. Memberships, and Hobbies

Member of Suffolk County Community College Phi Theta Kappa, and Mu Alpha Theta.
